A Block of Evergreens in our Nursery

## TERMS

NEW ACCOUNTS.—Cash with order or satisfactory references. All bills due 60 days from date of invoice.

C. O. D. ORDERS must be accompanied with a deposit.

DAMAGED PLANTS.—Should a shipment reach you by express damaged, sign for it: "Received in damaged condition," and be sure to notify your express agent at once to inspect the plants. Then notify me immediately and I will assist in every way possible that the shipment may not be a total loss. Do not return plants to me without first communicating with the express company.

CLAIMS.—All claims must be made on receipt of goods, or they will not be entertained.

NO WARRANTY.—While I exercise the greatest care to have all **bulbs**, **plants** and **nursery stock** true to name, I do not give any warranty, express or implied, and will not be in any way responsible for the crop. If the purchaser does not accept the goods on these terms and conditions, they must be returned at once, and the money that has been paid for same will be refunded.

PRICES.—All prices and terms are subject to change without notice. This is made necessary by unsettled business conditions that affect the cost of materials that we are obliged to buy for operating our business, and also by

fluctuations in the prevailing wage rate.

EARLY ORDERS.—To one familiar with the rush at the packing season, it must be obvious that it is impossible to fill an order requiring much time in its preparation on short notice, without doing an injustice to others who have their orders previously booked. In fairness to all, I have adopted the practice of filling orders in the rotation received, unless orders are received far enough ahead of the packing season, with instructions to ship at a given date, so that I can arrange a special shipping date. So I again say—place your orders as far in advance as you possibly can, stating when you would like stock sent.

PLANTS BY EXPRESS.—We do not deliver plants free by express, the purchaser paying the charges, which are by the principal express companies, 20 per cent. less than regular merchandise rates. We strongly urge this method of transportation, as it enables us not only to give better values in the form of larger and finer

plants, and unless instructed to the contrary, all orders are forwarded by express.

PLANTS BY RAIL.—Shrubs, Hedge Plants and other dormant stock can be forwarded safely by fast freight lines, even to very distant points, at low rates.

PACKING FREE. All retail orders.—We make absolutely no charge for boxes or packing or delivery to any express, freight or steamship line in Albany, N. Y. Wholesale orders to the trade, charges for boxes and packing material at cost.

**SAFE ARRIVAL GUARANTEED.**—We guarantee the safe arrival of all plants in any part of the U. S. or Canada when sent by express. *If forwarded in any other manner they are entirely at the risk of the purchaser.* 

We would like to impress upon our customers and intending customers that it is to our interest as well as theirs that only strong, healthy stock be furnished. We believe that our satisfied customers will be our best advertisements.

Our nursery and greenhouses are always open for inspec-

GUARANTEE While we exercise the greatest care to have all trees, shrubs and plants sold by us true to name and free from disease, and hold ourselves prepared to replace, on proper proof, all that may prove to be otherwise, we do not give any warranty, express or implied, with respect to them. Any and all such goods are sold upon the express condition and understanding that in case any of them prove to be untrue to name, unhealthy or otherwise defective, we shall not be held responsible for a greater amount than the original price of the goods.

**REPLACING** We cannot replace trees which fail to live or make a deduction on plants lost by customers. The success of a tree depends upon its management, after it leaves our hands, and over its planting and after treatment we can have no possible control. A tree may be killed by too much or too little water, by drought, by being planted too deep or not deep enough, or by having its naked roots exposed to the wind for an hour; evergreens are especially endangered by this last treatment. One should also bear in mind that a tree planted in the Spring may show no life until Autumn, or even fail to come out in full leaf until the succeeding Spring. We have often had trees reported as lost when a little patience on the part of the owner proved that the trees were really alive.

SPECIAL INSURANCE

A great many people want the nurseryman to stand all losses, whether due to climatic conditions, planting, or after care. For such customers we offer the following insurance proposition. Upon payment on day of delivery, or before that date, of full purchase price, plus twenty-five per cent of same, we will insure the growth of such stock as we deliver except from injury sustained by fire, cattle, hogs, accidental, willful or malicious destruction and floods, until the first day of September after delivery. Purchaser is to notify us promptly on or before the first day of September as to losses claimed, so we can investigate and issue proper credits. No claims will be honored unless plants are left undisturbed in the ground until we have had an opportunity to investigate, in case we should desire to do so.

## Suggestions for Planting Evergreens, Trees or Shrubs

### PREPARING THE HOLES

Dig the holes not less than one foot wider than the root area of the tree it is to hold, and from a foot to two feet in depth, according to the root system. If the soil is poor, some sods, well rotted manure, old compost or leafmold should be added and worked in thoroughly. If the soil at the bottom of the hole is a stiff, hard clay, shale, or a gravelly hardpan, it should be picked and broken up to the depth of a foot or more and Alphano Humus or good soil mixed with it.

#### SETTING THE TREE

Before setting the tree, go over the root system carefully and with a sharp knife or pruning shears cut off all the broken and bruised portions of the roots. This does not apply to specimen evergreens delivered with ball of earth, which should not be disturbed. The soil mark on the bark of the tree will show the depth at which it stood in the nursery; take good care when placing your tree in the hole that it comes at the same depth. Do not plant too deep. Spread the roots out naturally so that they may not be twisted or crowded, then fill in gradually with fine soil, working it in between the roots, so that no unfilled places may be left. Fill the soil in, layer by layer, and shake the tree while doing so, to assist the soil to work in between the roots. Tamp the soil down carefully but firmly after each layer has been filled in. Continue this process until the hole is filled to within about two inches of the top, then the remainder of the soil should be shoveled in, leveled up and brought to the surface without tamping. Do not hill the dirt up around the tree.

In dry weather a liberal allowance of water may be used before filling in the last soil and allowed to soak away gradually, after which the filling may be done as described above.

#### MULCHING

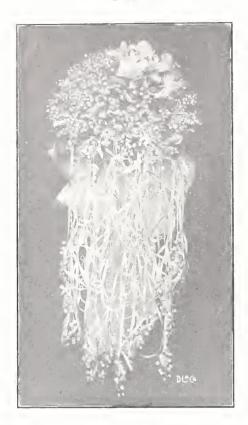

The importance of mulching, especially in dry seasons, should not be overlooked, its object being to hold moisture about the roots and thus aid in the successful growth of the tree. Spread some coarse manure or compost over the surface around the tree, extending a little beyond the line of the hole. It is always advisable to mulch your evergreens in the Fall, especially those newly planted.

## **CUT FLOWER DEPARTMENT**

Our facilities for furnishing fresh Cut Flowers, Floral Emblems, Bridal Bouquets and Floral Decorations, are unexcelled. Our extensive greenhouses and nursery enable us to grow novelties and add variety to our stock. We keep in touch with all the newest varieties of flowers and plants, also the most up-to-date arrangements.

Patrons wishing to express their thoughts in flowers, or rather

## "Say it with Flowers"

can safely leave the selection to us, as we guarantee the best selection for each particular occasion.

We are members of the Florists' Telegraph Delivery Association and can guarantee delivery of Cut Flowers and Floral Emblems in all parts of the United States and Canada on short notice.

We grow our own flowers in large quantities, cutting them fresh every day and do not under any circumstance handle artificial or poor grade flowers.

Our greenhouses and nursery are within  $2\frac{1}{2}$  miles of our store and always open for your inspection. Call on us any time; we will give you all the service in our power.

Evergreens add the needed touch with their refining and softening influence Charming effects are obtained in Winter and Summer

# Ornamental Coniferous Evergreens

We gladly furnish all information as to how to plant and care for Evergreens, Shrubs, Trees and Perennials. Always protect roots with damp material on arrival, to keep the *wind* and *sun* from reaching same. Be careful in watering, as many a plant is killed by giving too much water, especially perennials. During a dry period, give Evergreens, Shrubs and Trees a thorough soaking once a week, after planting, for four or five weeks in succession. Let nature do the rest, but do as much cultivating as possible, especially the day after rain or the watering. Do not water perennials as long as your soil is moist. For winter protection, especially newly planted evergreens and perennials, it is advisable to use straw manure or salt hay as a ground covering after the ground freezes, the idea being to prevent frequent thawing and freezing.

In comparing prices on Evergreens, the height alone cannot definitely establish their values. Example: Two plants of the same variety may be exactly the same in height, but in width and compactness one may greatly exceed the other, and in consequence have a greater value.

#### ABIES. Fir.

Pyramidal trees of extreme hardiness, often attaining great height, thriving in almost any exposed situation. They are justly ranked among the most ornamental subjects available for the embellishment of landscape or lawn. The leaves are usually deep green, lustrous above, and silvery white beneath.

brachyphylla Nikko Fir. A native of Japan, with quick, rather open growth and dark green needles. We especially recommend it as one of the best Firs.

Each	Each
3 ft\$5.00	5 ft\$10.00
4 ft 7.50	6 ft
	Lup

concolor (White Fir, or Colorado Silver Fir). The finest of the Rocky Mountain evergreens. A majestic tree and the most dependable Fir in cultivation. Compact, graceful growth, with broad, flat, silvery bluish-green foliage. Perfectly hardy and a rapid grower. Cones 3 to 5 in. long, green or grayish-green.

Each	Ea

4 to 6 ft. specimens. \$10.00 to \$25.00

Douglas Fir (Pseudotsuga Douglasi). One of the tallest and most important of our evergreen trees, and one of the most rapid growing. It is a good, live green Winter and Summer, and is unexcelled for all purposes.

Each	Each
2 to 3 ft\$3.50	4 to 5 ft\$7.00
3 to 4 ft 5.00	Specimens 6 ft. up. \$10.00 up

umbilicata. Very effective Fir, very hardy, tall and slender, with glossy, medium size, dark green foliage; silvery beneath.

Specimen trees only, 6 ft. up.....Stock limited

A planting of Evergreens and Shrubbery will enhance the appearance of your property and increase its value

A Well Kept Foundation Planting of Evergreens

### JUNIPERUS. Juniper.

The Junipers form one of the most important groups of evergreens for garden and lawn planting. The arborescent forms make beautiful specimens, while the prostrate varieties are widely used as a ground cover. They embrace species of great hardiness and their pyramidal and columnar forms are very effective in formal gardening, giving an architectural emphasis that is often so very desirable. In our cold climate these are about the only plants giving this "spiky" effect so much admired in Italian landscapes.

chinensis (Chinese Juniper). A very hardy and ornamental tree of pyramidal outline, with a pleasing grayish-green foliage, and indifferent to extremes of temperature and diversity of soil.

Each	Each
2 to 212 ft\$3.00	$3\frac{1}{2}$ to 4 ft\$7.00
$2\frac{1}{2}$ to $3$ ft	5 ft
$5\frac{1}{2}$ ft	\$15.00

chinensis, var. columnaris (New). The best upright Juniper; very hardy. Foliage bluish-green, a good bright color during Winter.

Each	Each

### FOR WINTER DECORATIONS

See pages 8, 9, 10 and 12

### FOR WINDOW BOXES—IN WINTER

We can furnish small, nursery-grown Evergreens, 75c. up. Call and inspect our stock, grown especially for window and porch decoration. Plans also furnished for Evergreen plantings about your home.

### PICEA. Spruce.

Spiuces are unsurpassed for their ornamental qualities. They are conical or pyramidal evergreens, of great hardiness and usefulness. Splendid for park planting or as lawn specimens, and when placed among other evergreen planting, form a most pleasing contrast. The loftiness and stately spire-like crowns of the Spruces lend a peculiar charm to the landscape. The dwarf forms are valuable subjects for bordering the taller evergreens.

albertiana conica glauca. This interesting and dwarf Spruce was found in 1904 near Banff, Canada, by Professor Jack of the Arnold Arboretum; it is conical and very dense in habit.

orientalis. A very compact, slow-growing evergreen with dark green foliage. Very hardy and an acquisition to dwarf plantings.

Engelmanni (Engelmann's Spruce). A choice and valuable Rocky Mountain tree, of dense, pyramidal growth. The young branches are pubescent and clothed with bluishgreen foliage, which emits a strong, aromatic odor if bruised. Cones light brown, 2 to 3 in. long. This variety is native to the Rocky Mountains from Alberta and British Columbia to Colorado and New Mexico. Hardy in almost all parts of the country.

excelsa (Norway Spruce). A tall and picturesque tree of many variations and the most widely cultivated of all the Spruces. As an individual tree, with room to develop, is of pyramidal, symmetrical growth, its lower branches sweeping the ground. Quite hardy, but does not do so well in unprotected places.

pungens (Colorado Spruce). A very hardy and fine tree from the Rocky Mountains. The branches are set in regular whorls which diminish in size as they near the top, forming a very symmetrical, pyramidal tree of conical outlines. Leaves glaucous green, rigid and spine-pointed.

pungens glauca (Colorado Blue Spruce). One of the most attractive evergreens cultivated, entirely hardy; has the same good qualities as the one above but the leaves are of an elegant, glaucous blue tint. Will succeed in locations where many evergreens fail.

pungens glauca Kosteri (Koster's Blue Spruce). The Blue Spruce of Colorado, greatly improved. An indispensable addition to every estate. The attractive silvery blue color stands out strongly against the green of all other shrubbery and evergreen. A healthy, vigorous grower and very hardy. It is a favorite tree and should be in every

Picea pungens glauca Kosteri

### PINUS. The Pines.

Pines are natives of lowlands and mountainous regions and withstand well the cold, bleak winds to which they are subjected. The tall growing varieties are among the most ornamental trees, both for planting as a background in landscape gardening or as single specimen. Their appearance makes them remarkably distinct characters. The dwarf forms are very valuable for landscape, rockery and hillside planting.

austriaca (Austrian Pine). A tall, massive tree, with spreading branches heavily plumed with long, stiff, dark green needles.

Each	$\mathbf{Each}$
2 to 3 ft \$3.50	5½ ft\$9.50

5 ft 8.00	7 to 8 ft\$20.00-27.00

Cembra (Swiss Stone Pine). A distinct type, resembling somewhat the White Pine, but its needles are not so long and it is a much better lawn tree. Foliage very dark green. Makes an excellent tree, adding a touch of very attractive color to the Winter landscape.

3 to 4 ft.....\$8.00

Mughus (Dwarf Mugho). One of the best dwarf evergreens for rocky banks, terrace slopes, small lawns, and very effective when grown at the corners of entrances, either single or in company with other evergreens. It is broader than its height and sometimes almost prostrate.

Each Each 1 ft. spread......\$3.00 | 1½ ft. spread.....\$4.00 Specimens......\$10.00 up

### TAXUS. Yew

The Yews are very desirable evergreens, they are highly effective and ornamental in bed, group or specimen planting. Their very large, blackish-green foliage makes a fine contrast with the other evergreens, they withstand clipping well, and are therefore well suited for producing formal effects.

baccata repandens (Spreading English Yew). A form of low, spreading habit, grows rarely over 4 ft. high; long, dark green foliage.

### THUJA. Arborvitæ

A group of useful, hardy evergreens of varied forms; especially desirable for formal gardening as they can easily be clipped to any shape and for this reason are almost indispensable. Their clean, neat, compact appearance makes them useful in grouping, bedding, bordering and formal gardening, for cemetery and lawn specimens, for hedges. screens, window boxes, vases and house decorations.

occidentalis (Common American Arborvitæ). The well-known screen and hedge plant. Grows naturally to a tree 40 ft. tall, but can be kept down to any size by shearing

### BOX BARBERRY

Hardy Anywhere in U. S. A. The New Hardy Edging and Dwarf Hedge

Not only will Box Barberry successfully take the place of the box border in localities where Boxwood is not hardy, but it gives an additional Autumn charm to the garden by changing the color of its foliage from a pleasing green to yellows and rich reds in Autumn. 2-year, vigorous plants, field grown, \$25.00 per 100.

## Deciduous Trees

Whether for beautifying your country estate, screening some objectionable object, for shade in your dooryard, for windbreaks, for real estate investment, or for the sake of others, plant trees. We carry a large assortment of deciduous trees, especially suitable for Albany or vicinity street and ornamental planting. All our trees are finely shaped, well rooted, and have been transplanted one or more times. Prices here quoted apply to trees ranging from 6 to 10 feet, according to species and variety. We can supply larger specimens of many sorts, with stems varying from 2 to 4 inches in diameter. These trees range in price according to species, size and general make-up. Special prices quoted where a quantity is wanted.

# Reliable List of Hardy Climbing Vines

### AMPELOPSIS VEITCHI

(Boston or Japan Ivy)

The most popular and desirable climbing plant for covering brick, stone, or wooden walls, trees, etc.

The foliage is of a rich olive green during the Summer, changing to various shades of bright crimson and scarlet in the Fall

One year, 50c. each, \$5.00 per doz.; two year xxx, 75c. each, \$8.00 per doz.

### Ampelopsis quinquefolia

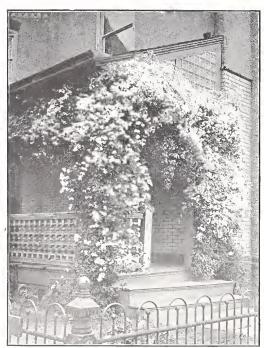

(Virginia Creeper, or American Ivy)

This well-known climber is one of the best and quickest growing varieties for covering trees, trellises, arbors, etc.; its large, deep green foliage assumes brilliant shades of yellow, crimson and scarlet in the Fall.

Extra strong, 2-year plants, 50c. each.

Wisteria sinensis

Clematis paniculata

### ARISTOLOCHIA SIPHO

(Dutchman's Pipe Vine)

A vigorous and rapid growing climber, bearing singular brownish-colored flowers, resembling in shape a pipe. Its flowers, however, are of little value compared to its fine, light green leaves which are of very large size, and retain their color from early Spring to late Fall; perfectly hardy. Extra strong plants, \$1.50 and \$2.00.

### **CLEMATIS**

As a climber for the veranda, garden walls, fences or arbors, it has no rival among the strong growing blossoming plants. The Clematis should be grown in rich, deep sandy loam and well mulched for the winter. Each paniculata \$0.50 Jackmani 1.000 Henryi 1.00

## BIGNONIA Trumpet Vine.....

ENGLISH IVY

## LONICERA (Honeysuckle) Halliana, 2-year ...... \$0.50

## Lycium chinense (Matrimony Vine)

A graceful shrub-like vine with small lavender flowers followed by red berries; especially good for planting on banks and terraces. 50c. each, \$5.00 per doz.

### VINCA MINOR

(Periwinkle, or Trailing Myrtle)

 $\begin{array}{c|cccc} \text{Useful for covering graves, or} \\ \text{growing in shady places under} \\ \text{trees, etc.} & \text{Each Doz.} \\ \text{4-in. pots.} & & \$0.25 & \$2.50 \\ \text{5 in. pots.} & & .35 & 3.00 \\ \end{array}$ 

## WISTERIA Each

White. One of the best hardy climbers, producing their great trusses of flowers in abundance during the month of May. They should be liberally fed when first planted to give them a vigorous plant.... 1.00

Spiraea Vanhouttei

## Hardy Deciduous Shrubs

In this class are included the most popular and better known of our hardy flowering and ornamental shrubs. Their popularity is based on the wealth of flowers which they produce and their adaptability to the most ordinary conditions. No class of plants presents to our landscape a greater array of blossoms or a more symmetrical arrangement of their flowers, and once established, with the exception of a periodical trimming, may be left to take care of themselves, increasing in size and beauty from year to year.

All shrubs offered are strong and healthy, mostly 3- and 4-year old.

AMYGDALUS, FLOWERING ALMOND. Early Spring flowering shrubs, fully in bloom before the leaves appear. The beautiful rose or white flowers snuggle tight to the twigs. ...\$1.00 ALTHAEA (Rose of Sharon). Blooms late in August and September with brightly colored flowers. Very attractive. Should have a little protection in Winter until established. White, Pink. Each 50c., 75c.

BERBERIS thunbergi (Japanese Barberry). An indispensable shrub because of its adaptability for most any purpose. Absolutely the very best hedge shrub or this climate. 100 Each 1-1<sup>1</sup>/<sub>2</sub> ft. (25 at 100 rate)..... ....\$0.35\$20,00 30.00 2-2<sup>1</sup>⁄<sub>2</sub> ft. (25 at 100 rate)...... 40.00 vulgaris. Tall and strong grower, bearing an abundance of red fruit. Each 50c., 75c., \$1.00. vulgaris purpurea. Tall grower with purple leaves and

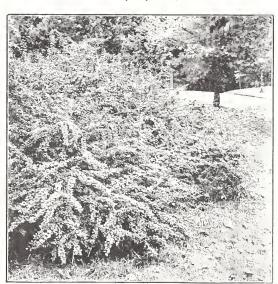

red fruit. Each 50c., 75c.

#### For Delivery in Fall NEW JAPANESE PURPLE BERBERIS

Description and price on application.

BUDDLEIA veitchi (Butterflybush). A beautiful flowering shrub, bearing long sprays of lilac-colored flowers with great treedom until stopped by frost. Each 50c. and \$1.00.

BUDDLEIA veitchi. Improved, flowers much larger and darker in color. 5-in. pot plants, 75c.

Berberis thunbergi

We call special attention to our list of shrubs at very reasonable prices.

CALYCANTHUS floridus (Sweet Strawberry Bush, or Carolina Allspice). A unique shrub of good growth, blossoming oddly at the leaf axils in double spicy fragrant flowers of chocolate-red. Each 60c.

CORNUS florida (Dogwood). White. 7 to 8 ft. tree form \$5.00 to \$6.00.

florida rubra. Red.

The Dogwoods have many desirable qualities to place them among the most popular flowering trees. The early Spring flowers are followed with attractive red berries. The leaves have brilliant shades of scarlet in the Fall. 3 to 4 ft. Each \$2.50.

elegantissima variegata. Shrub. Grows 6-8 ft. high. with purplish-red branches and beautiful silver variegated foliage. Each \$1.00.

lutea (Yellowtwig) Shrub, A striking yellow-branched

form, very satisfactory for contrasting. Each 50c. sibirica (Redtwig) Shrub. Grows 6-8 ft. high, with clusters of fine white flowers, succeeded by a Fall crop of ornamental berries, stem and branches turning to bloodred in Winter. Each 50c.

CYDONIA iaponica (Iapanese Ouince). This shrub is completely covered with dazzling scarlet flowers in early Spring, followed by small quince-shaped fruits which are quite fragrant. 1½-2 ft., each 75c.

DEUTZIA gracilis. Dwarf growing, densely bushy, its branches wreathed with pure white flowers in May. 1-1½ ft., each 50c.; 2-2½ ft., each 75c. lemoinei. Large flowers of pure white, borne in coneshaped heads. 2-2½ ft. each 75c. crenata magnifica. A most distinct new variety with

large corymbs of pure white flowers groving from 3-4 ft. high. Each 69c.

EUONYMUS alatus (Cork-barked Euonymus). Grows 8 ft. high. Small, delicate flowers in late Spring are followed by attractive red berries in the Fall. Curious corky bark, brilliant Autumn foliage. Best for individual planting. 3 ft., each \$1.50; 4 ft., each \$4.00 to \$5.00.

Cydonia japonica. Flowering Quince

Buddleia veitchi. Butterflybush (See page 15).

EUONYMUS europaea. A large shrub, bearing rose-colored capsules with red seeds in Autumn. Striking, conspicuous. 3-4 ft., each \$1.00 to \$2.00.

**EXOCHORDA grandiflora** (Pearlbush). Bears clusters of beautiful white flowers in May-June. 3-4 ft., each 75c.

FORSYTHIA fortunei. Erect branches and dark green foliage. 2-3 ft., each 50c.; 3-4 ft., 75c.

suspensa. Characterized by its graceful, drooping habit. 2-3 ft., each 50c.

viridissima. Erect shoots, spreading branches and narrow, bright, glossy leaves. 2-3 ft., each 50c.

HYDRANGEA arborescens (Hills of Snow). Flowers are similar to the familiar "Snowball" in appearance. A native variety, with white flowers in July. Each 75c. and \$1.00.

paniculata grandiflora. Wonderfully attractive when laden with their massive white flowers from August till Autumn. Single specimens, severely pruned every Spring and large beds kept in uniform development are extremely showy. Each 75c., \$1.00, \$2.00. **Tree Form.** \$2.00 to \$2.50.

KERRIA japonica. Graceful, slender, drooping branches, laden with a wealth of rich yellow flowers resembling large Buttercups. May-June. 3-4 ft., each 75c.

LIGUSTRUM ibolium. Strong, 2-yr. stock, several branches, not to be compared with California Privet. Absolutely hardy and the very best Privet for this climate.

Will not winterkill. \$18.00, \$25.00 and \$30.00 per 100. nanum compactum (Lodense Privet). This is a new dwarf and distinct form of Privet. The foliage is of a rich dark green and of extreme hardiness. It is particularly useful for low hedges and borders. It stands shearing very well and makes a good decorative plant for jardinières and tubs. Strong 2-year-old plants, 35c. each, \$25.00 per 100; large ball-shaped plants (specimens), \$2.00 and up.

LILAC, Common Purple. Each 50c., \$1.00, \$1.50. Common White. Each 50c., \$1.00, \$1.50. Tree Form. Each \$2.00.

FRENCH NAMED LILAC. All varieties. \$2.50 and up. Hugo Koster (New). Beautiful shade of lilac.

Giant des Battailles. Large trusses of medium-sized flowers. Single. Blue.

Jules Simon. Very large flowers and trusses; lilac-mauve

passing to pale azure. Double.

Mme. Casimir Perier. Very large; white; double.

Mme. Lemoine. A very fine pure white; double.

Michael Buchner. Dwarf, pale lilac; very double.

President Grevy. Very large, handsome soft blue; flowers very double.

LONICERA (Bush Honeysuckle).

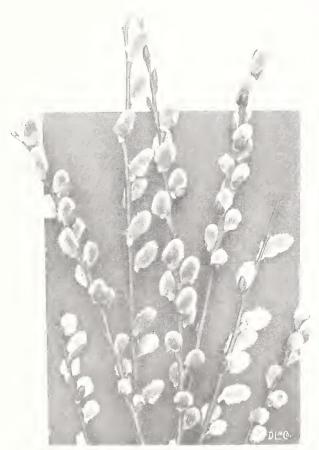

fragrantissima. The early pink and white flowers are sweetly fragrant, and its foliage remains till late in Winter. Each 50c.

Winter. Each 50c.

morrowi. A spreading variety, growing 4-6 ft. tall. June. Flowers white and bear very handsome fruit. Each 50c., 75c.

tatarica alba. A variety of upright habit, with very large, pure white flowers. June. Each 50c., 75c. rubra. Deep rose-pink flowers; early. Each 60c., 75c.

PUSSY WILLOW. Grow your own Pussy Willows. For cut sprays we offer the giant variety, strong shrubs. Each 50c, and \$1.00.

Pussy Willow

Forsythia fortunei

PHILADELPHUS coronarius (Garland Mockorange). Affine old form, 8-10 ft. tall. Its large white flowers in very graceful sprays are delightfully scented. Each 60c., 75c., \$1.00. aureus (Golden Syringa). Valuable for contrasting grouping and the best golden-leaved shrub. Each 75c., \$1.00.

grandiflorus. Very large flowers in June. Each 50c. virginalis. One of the most beautiful new varieties. Strong, tall grower, with very large, double-crested flowers with round petals. Pure white, sweetly scented, clusters of five to seven. Each \$1.00, \$1.50.

PRUNUS pissardi (Purple-leaved Plum). Handsome and distinct little tree, covered with a mass of small, white, single flowers in Spring; later with showy pinkish-purple leaves that deepen in color to the end of the season. Each 75c., \$1.00.

triloba (Double-flowered Plum). The whole tree is decked in a fleecy cloud of very double, light pink blossoms in early Spring before its leaves appear. Very effective on a still, leafless landscape. Each \$1.00, \$1.50.

RHUS cotinus (Purple Fringe, or Smoketree). A small tree or conspicuous spreading shrub with large leaves; overhung in Midsummer by mist-like clouds of tiny flowers. These billowing panicles are a light layender when fresh, very persistent, and give the impression of smoke at a distance. Each 75c. and \$1.00.

typhina laciniata (Staghorn Sumach). A fern-leaved variety, flowers during June and July in panicles. Each 60c.

RHODOTYPOS kerrioides (White Kerria). 3-6 ft. An attractive shrub, with yellowish-green corrugated foliage and large, single white flowers late in May. The black seeds which follow are large and showy. Each 50c., 75c., \$1.00.

aurea (Golden Elder). The golden yellow leaves of this Elder give heightened effects in tone and color. Grows naturally 10-12 ft., but can be pruned into a neat, com-

pact little bush. Each 50c.

A Foundation Planting of Flowering Shrubs

SPIRAEA Anthony Waterer. Very free flowering. The best dwarf, bushy, spreading type and with large corymbs brilliantly colored in rosy crimson. Each 50c., 75c.

froebeli. Similar to Spiraea Anthony Waterer, but more robust, has better foliage of a reddish-bronze tint. Each 50c., 75c.

prunifolia, flore pleno (Bridalwreath). Plum-leaved foliage, tall grower but will prune to any desired height. Its long, curving branches are covered their whole length with small, double white flowers in early Spring. Each 75c.

opulifolia aurea (Golden-leaved Ninebark). With goldenyellow, tinted foliage and double white flowers in June; showy. 50c., 75c.

billardi. A tall growing variety with dense panicles of rich pink flowers in July and August. 50c.

vanhouttei. One of the very best of all shrubs. A complete fountain of pure white bloom in May and June. Each 50c., 75c., \$1.00.

SYMPHORICARPOS racemosus (Snowberry). A well-known shrub with inconspicuous rose-colored flowers in June and July, followed by large clustered, milk-white fruits which remain far into Winter. Each 50c., 75c. \$1.00.

vulgaris (Indian Currant). A medium-sized shrub of graceful habit, with small foliage and flowers, covered with small purple fruit which hangs in Winter. A splendid shrub for hedge and will stand a great deal of shade. Each 50c., 75c.

VIBURNUM carlesi. A new introduction from China. The flower buds are formed in Fall, developing in Spring into large corymbs of flowers, resembling a Bouvardia; of rosy white, exhaling a delicious perfume more powerful than the Jasmine. Being hardy in this climate, it is one of the most valuable shrubs. Each \$3.00.

the most valuable shrubs. Each \$3.00, dentatum (Arrowwood). 8-10 ft. high. Bright green, heart-shaped leaves turning to purple and red; flowers creamy white, in flat cymes; May and June. The fruits blue-black. Each 50c., 75c.

lantana (Wayfaring-tree). 10-12 ft. May and June. White flower clusters, succeeded by red fruits that later turn black; charming throughout the Summer. Leaves beautifully wrinkled. Each 50c., 75c.

opulus (Highbush Cranberry). 8-10 ft. May and June. Spreading habit. Single white flowers borne in flat, imperfect clusters. Valued for the brilliant red berries that cling to the leafless branches during the early part of the Winter. Each 50c., 75c., \$1.00.

sterilis (Snowball). Guelder Rose, or old-fashioned Snowball. Each 50c., \$1.00.

plicatum tomentosum. Large, flat cymes of pure white flowers, borne along the branches in the greatest profusion in June. The single form of the Japan Snowball. A very handsome and desirable shrub. Each 50c., 75c.

WEIGELA Eva Rathke. The most distinct and one of the most attractive varieties. Flowers deep carmine-red. Each 75c.

rosea. A tall growing shrub, with deep pink flowers in the greatest profusion during June. Each 75c.

folia. Variegated. 75c. Bronze folia. 75c.

Weigela (Diervilla) lutea. 75c.

## FRUIT DEPARTMENT

We are prepared to plan and lay out fruit gardens, making selections of varieties and number of plants necessary for a supply of fresh fruit for family use, and give special prices. Place your orders for fruit trees early.

#### CRAB APPLE

**Hyslop.** Large, deep crimson; very popular. October.

#### SUMMER APPLES

Red Astrachan. Large, nearly covered with deep crimson; juicy and tart.

Yellow Transparent. Pale yellow when ripe; flesh tender, juicy, sub-acid; a free grower and early bearer.

#### **AUTUMN APPLES**

Duchess. Skin yellow streaked with red. Flesh juicy and

good. strong grower and abundant bearer.

Fall Pippin. Large, roundish oblong; yellow; flesh tender, rich and delicious. October to December.

Wealthy. Medium, deep red, juicy, fine quality, productive. October.

#### WINTER APPLES

Baldwin. Large, bright red, crisp, juicy and rich; very productive.

**Delicious.** Large, bright red, highest quality.

Northern Spy. Pale yellow, striped with red, good keeper,

excellent flavor; grows best in cold climates.

McIntosh. Early Winter Apple. One of the best and most beautiful red dessert Apples.

Apple Trees, \$1.50 each

#### **CHERRIES**

Black Tartarian. Sweet, very large, bright purplish-black, tender, juicy, and of rich flavor.

Montmorency. Large, red, very productive, best for preserving, tart. Early July.

Schmidt's Bigarreau. Sweet, large, dark red fruit, strong, vigorous grower.

Yellow Spanish. Late June. Yellow with red cheek; firm, juicy and delicious. The most popular of all light-colored cherries.

Cherry Trees, \$1.50 each

#### **PEACHES**

Hale, J. H. (New Yellow). Fruit large, globular. Flesh deep yellow, fine-grained, firm, tender and flavor delicious. Crawford's Early. Fruit large, oblong; skin yellow, red cheek; flesh deep yellow, juicy.

Elberta. Large, yellow, with red cheek; flesh yellow and of delicious flavor.

Rochester. Greatest early freestone, long-keeping, yellow Peach. Good shipper. Very hardy, quality superior.

Bearing Size Peach Trees, \$1.00, \$2.00, \$3.00

Bartlett. Summer Pear. Buttery, very juicy and high flavored; bears early and abundantly. September.

Clapp's Favorite. Summer Pear. Very large, yellowish and melting; flushed red on sunny side. September.

Flemish Beauty. Fall Pear. Large, sweet and good.

Grown largely throughout the North.

Kieffer. Autumn Pear. An early and very prolific bearer; wonderfully showy.

Seckel. Autumn Pear. Small, yellowish-brown; flesh very fine grained, sweet, exceedingly juicy, buttery.

Pear Trees, \$1.50 each

Large bearing size fruit trees, 4-yr, old trees, \$3.00 and up.

#### **PLUMS**

Abundance. Amber; flesh yellow; juicy, tender, sweet; productive. September.

Burbank. Large; clear cherry-red; an abundant bearer. September.

Lombard. Medium size; oval, violet-red, flesh yellow, vigorous, great bearer. September.

Plum Trees, \$1.50 each

#### OUINCE

The Quince crop is usually reliable and not often destroyed by capricious weather variations. Very much desired for preserves, jellies and canning. Fruits are quite fragrant, and the trees and bloom highly ornamental. Each \$1.50.

#### GRAPES

Agawam. Dark red or maroon; bunches compact, very large; berries large, oval; pulp soft; flavor sweet and aromatic. Ripens early; is very attractive. One of the best of the red varieties.

Concord. Black and handsome large Grapes; a very hardy, reliable and productive variety, succeeding everywhere.

Wyoming.

Diamond, Moore's. White. A vigorous grower, with large, dark, healthy foliage, very hardy. It is a prolific bearer,

producing large, handsome, compact bushes.

Niagara. White. Vine hardy and strong grower; bunches very large and compact, many weighing fourteen ounces, sometimes more; berries large, skin thin but tough. The most popular white Grape.

Grapes: 2- and 3-years, each 50c., doz. \$5.00.

#### GOOSEBERRIES

Industry. Red. Bush a strong grower, and the most productive of the European varieties; fruit large, dark red, mild, sub-acid, sweet and good flavor. Less subject to mildew than others. One of the best for the market.

Each 35c., doz. \$3.00.

#### RASPBERRIES

Columbian. Purple. A very vigorous grower and very hardy. Delicious for table or canning.

Cumberland. Black. The bush is hardy, a vigorous grower, and exceptionally productive. Fruit of uniform size, and larger than any known black Raspberry.

La France (New). A new introduction from France. Extra strong grower and everbearing. If you are looking for something really first-class, try this variety. Stock limited. 50c. each, \$5.00 per doz.

St. Regis. Red. Raspberries for four months. An everbearing variety. They are Raspberries of the very highest grade in size, in brilliant crimson color, in firmness, in flavor. This has been aptly termed the "early-till-late" variety, for it is the first red Raspberry to give ripe fruit, while it continues to produce berries without intermission until late in October.

Each 15c., doz. \$1.50, 100 \$10.00, except where noted.

#### BLACKBERRIES

Snyder Blackberries.

Doz. \$1.00, 100 \$6.00.

Dark patch is the odorless Alphano, all ready to be raked into the grass out of sight. For lawns it is a wonder worker.

Dig it around your shrubs. It quickens their vitality and multiplies their bloom.

## We have the Agency in Albany for

# Alphano Humus

# The Ideal Soil Enricher for Lawn and Garden

Here at last is a perfectly balanced soil ration that unfailingly produces both immediate and long enduring fertility. No odor. No weed seeds. No contagious disease germs. This cannot be said of manures.

It gives the proper tilth to the soil. It loosens up compact ones and binds together loose ones. Defying dry weather, it acts as a soil moistening sponge. Prevents soluble plant foods from leaching away before benefiting the roots.

It contains all the essential soluble mineral plant foods, all of which are now so prohibitively high. The potash alone it contains

would cost you several dollars; to say nothing of its phosphates and nitrogen.

It is also liberally inoculated with Alphano inoculant, filling it with teeming billions of all the nitrogen - gathering and fixing bacteria for the legumes, such as Alfalfa, Clovers, Peas, Beans and the like.

Alphano is cheap to buy, easy to use, gives quick results the first season, and continues its benefits the next.

It is sweet, dry and finely granulated.

Don't confuse it with the unprepared, often sour, water-logged humus sold under various names.

## PRICES:

Special price for direct factory shipments on carload lots.

Your garden will not be a success unless you use liberal amounts of fertilizer.

Being odorless, it stimulates both your pleasures and the blooms in your flower garden.

In planting your vegetable or flower seeds, sow some Alphano right in the drills. It gives the young plants plenty of just the ready food they need, for quick, strong growth

You can have a garden of Roses like this by using our carefully selected potted Roses

## Best Hardy Garden Roses

While our old customers are familiar with the grade of Roses which we send out, we wish to direct the attention of those who have never planted our stock to the manner in which these plants are prepared. The bulk of our Roses are field-grown plants, having been cultivated in fields during the growing season of 1923 and 1924. In Fall they were carefully dug, planted in pots and stored in cold greenhouses, where artificial heat is only used to exclude severe frost. Under this treatment the plants develop in the most natural way, and are much superior to stock which has been forced in a high temperature into an unnatural and weakened growth, and to comparatively worthless Roses which are sold so cheaply in a dormant condition.

### HYBRID TEA ROSES

The following varieties bloom all Summer.

Most of these plants are budded or grafted, and while some planters prefer stock grown on their own roots on account of the liability of budded plants to throw up suckers, this will rarely occur if deep planting is practiced, and if a wild shoot should appear it should be removed close to the root. Much can be said in favor of budded plants, being more vigorous, producing finer blooms, come into bearing sooner, and are just as permanent and hardy as those on their own roots.

Write us regarding your favorite Roses if not listed in this catalogue. No doubt we have them. Please remember our stock is not mailing size but large, strong, two and three-year stock that will produce large quantities of flowers the first year. All our Roses are potted and sold sprouted, not dormant stock.

## Danker's Select Dahlias

We make a specialty of fancy Dahlias, and can offer only a few on this page. Write for our special list. Come and see our fields while in bloom. The very best will be found in our collection.

DECORATIVE	Each
Amun Ra (The Sun God) (Giant Decorative). This is one of the most sensational of the new Dahlias; color, copper and orange tones. First prize, California Dahlia Society 1921 Show. A variety that stands out above all others	
Augustinus. One of the Chrysanthemum-flowered types of decoratives. Flowers are very large, long petals, which are more or less twisted, forming a most graceful, pleasing flower. The ground color is a rosy salmon overlaid with bright metallic lilac; a splendid stem and very free flowering	
Colossal Peace. White edged, delicate pink, graceful, large flowers.	1.50
Dr. H. L. Tevis. Copper, old rose and gold; strong, stiff stems. One of California's giant varieties	1.00
Earle Williams. An exceptionally fancy or variegated variety; brilliant crimson-scarlet, each petal tipped with white.	
Easton. Not extra large, but very free flowering. Brilliant Turkish-red	.25
<b>Eldorado.</b> Size, stem and color are the best. Stock of this variety is in big demand and scarce	5.00
Futurity. Deep rose; fine cut flower; long stems	.75
Insulinde. Golden ochre; stiff stems, long, broad, twisted petals	1.00
Jersey's Pride. A large, attractive flower; apricot with golden suffusion, produced on long, stiff stems	1.50

Earle Williams

Amun Ra

Ea	oh
King of Autumn. This is a great flower; its habit of growth is ideal; an abundance of flowers on stems 3 to 4 ft. long; pleasing Autumnal tints. Salmon to buff\$0	
Millionaire. One of the largest decorative Dahlias grown; very pretty lavender orchid	.00
Mina Burgle. Popular California variety; long stems, splendid for cutting and garden decoration. Dark scarlet	.35
Mrs. Carl Salbach. This is one of the California varieties which has been seen at most of the Dahlia shows throughout the country during the past three seasons, and which has been accorded many honors. Flowers stand up clear of foliage on strong stems; color a pleasing shade of lavender pink with white suffusion. Anyone growing Dahlias should plant this variety.	
Oregon Beauty. Large, oriental red, very productive, long stems	.50
Osam Shudow. The most pronounced feature of this Dahlia is its formation. The large, heavy, loose petals produce a flower more like a gigantic Rose than a Dahlia. In color, it is old rose suffused with lilac and shading to yellow in the center. Stout stem, flower held well above the foliage	,50
Patrick O'Mara. Chrome-yellow. Dahlia Society's Gold Medal, 1921. Good cut flower variety	.75
Pride of California. A brilliant, glowing cardinal-red. The best of its color	.7.5
Princess Pat. Giant American Dahlia; a most pleasing shade of old rose; awarded first prize for best seedling at Palace Hotel Show, San Francisco in 1917, and again at the same show in 1919	00

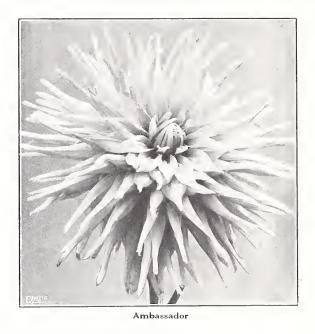

#### CACTUS

CACIOS	
Countess of Lonsdale. A peculiar, but pleasing blending of salmon, pink and amber, a color difficult to describe. Blooms freely under all conditions	
HYBRID CACTUS	
Ambassador. Sensational Dahlia since its introduction in 1921, when it won the First Prize at the San Francisco Show for the most artistic variety exhibited. Its color is a soft yellow at center, with salmon, amber and pink shadings, gradually deepening toward the tips and outer floral rays; a strong grower and free bloomer from early till late	2.00 .75 .75 1.00
PÆONY	
<b>Field Marshal.</b> A very fine yellow variety, sometimes producing single flowers. We consider the double flowers far superior to all other yellow varieties	1.00
SINGLE	
Etendard. Fine large white	$\frac{1.50}{.25}$

Kalif

# The Newest and Rarest in Dahlias

Most of the following Dahlias were originated on the estate of the late Judge Marean and are conceded to be the largest and strongest growing varieties ever produced and are in a class by themselves, always winning first prizes when allowed to compete at the principal Dahlia shows. (Can be furnished in plants only).

Owing to lack of space we will list only a few of our many choice varieties. Write for our complete list,

choice varieties. Write for our complete list.

Owing to lack of space we will list only a few of our	many ch
Champagne (Giant Decorative). Distinct in size and color; a golden champagne with chamois shadings	Each \$3.50
Cinderella (Hybrid Cactus). Perfect in type; flower full to center even in late Autumn; color pale salmon or fawn-pink shading to tan center, color blending exquisitely. Plants	
Dakota (Decorative). A very large exhibition flower of good form on stout stems; color a deep tone of rich coral red with coppery suffusion	
Edna Spencer (English Cactus). A delicate lavender- pink with white suffusion; a fine cut flower variety	.75
El Granada (Hybrid Cactus). Color a vivid orange, petals twist and interlace, showing at the tips a creamy yellow reverse; the long stem grows well out of the foliage and is absolutely stiff and faultless. This Dahlia has been awarded many prizes in California. Plants	
Grizzly. A giant Jacque Rose color red of the very largest size and best of its color; blooms 6 to 8 in. across	1.50
Jersey's Beauty (Decorative). The finest true pink decorative variety yet introduced and which has been one of the outstanding features of the Eastern shows both in 1923 and 1924, where it has been awarded	
many gold medals, certificates and prizes. It is a great exhibition flower and equally valuable for garden decoration. Unexcelled for cutting. We have a good stock and offer strong plants.	3.00
Jonkheer J. B. Von Tetz (Cactus). A new Holland variety; the freest flowering, good sized white Cactus; strong stems.	
Judge Alton B. Parker (Decorative). A coppery- salmon with golden hue; a large, perfect, deep flower. Fine for exhibition purposes	2.00
Judge Marean (Decorative). A glowing salmon-pink red, iridescent orange-yellow and gold, changing through different stages of development; early and continuous; long stems	1.00
Kittie Dunlap (Decorative). Blossoms of the largest size; color carmine-rose	2.00
Lucero (Decorative). Bronzy yellow, a good Autumn tint, very prolific and splendid garden variety	.75
Mariposa (Hybrid Cactus). A gigantic California variety; a true pink, with absolutely stiff stem, 3 ft. long.	2.00
Mephistopheles (Giant Decorative). Ruby red, showing golden yellow points. Received special Gold Medal, 1920.	2.00
Mrs. I. de Ver Warner (Decorative). A wonderfully productive, long-stemmed variety of a beautiful mauve-pink. Cattleya-orchid color	1.50
Mrs. J. Bowman (Show). A Daffodil yellow, the most prolific Dahlia we know. The plate of variety shown in our catalog was taken from one of our field plants bearing 50 perfect flowers at one time	1.00
New Moon (Hybrid Cactus). Canary-yellow tipped with white	l

	Each
Pheasant. A seedling of 1922; very double flowers of white with center mottled red and yellow, resembling a Chinese pheasant's feathers; strong stem; flowers lasting several days when cut	
Pride of Connecticut (Giant Decorative). A beautiful shade of clear pink, stiff stem and excellent keeper Flowers stand high above plant; in a class by itself.	2.50
Robert Treat (Decorative). An entirely new color American Beauty red, winner of the American Garden Magazine Sweepstake Prize, New York, 1924, and many other first prizes. For color and type it outshines any Dahlia yet seen. Size 8 to 11 in., depth 4 to 6 in.; stem 2 to 3 ft. Plants	.5.00
Shelikoff. A rich, glowing deep garnet, large size, deep flower of great substance, always full to center; one of the best dark colored varieties	.75
Shudow's Lavender (Decorative). A scarce and rare variety, silvery lavender shaded white; long stem and fine keeping qualities	3.50
Sunkist (Hybrid Cactus). Rosy-salmon to canary- yellow plants.	1.50
The Emperor (Decorative). A magnificent prize winner introduced in 1922. It is a maroon of the finest type; average height 6 ft	2.00
Tommy Atkins (Decorative). Bright scarlet, good stem	3.50
U. S. A. (llybrid Cactus). A pure, deep orange, early and free	1.00
Venus (Decorative). Of special value for cut flowers; soft, beautiful pink with lavender suffusion	1.00
Wizard of Oz (Giant Decorative). Amber pink, with salmon suffusion	3.00

# Danker's Fragrant Peonies

An important point to observe in the planting of Herbaceous Peonies is not to plant too deep. The roots should be placed so that the crowns are covered with 2 inches of soil. Too deep planting is a frequent cause of shy flowering.

Flowers are the sunshine of life

Planting of Peonies

## Gladiolus

#### Special Low Prices on High Grade Gladiolus Bulbs.

In cutting Gladiolus for the house, it is best to cut the spike as soon as the first one or two lower flowers are open. The remainder will open in water. Remove the faded flowers, cut a little off the stem, and change the water every day; treated in this way a spike will last a week or ten days.

# Danker's Select Hardy Perennial Plants

Of all the plants that are cultivated for purely ornamental purposes, there are none which have made such rapid strides in public favor as the old-fashioned Hardy Garden Flowers, the inhabitants of the perennial garden. Their popularity is not at all surprising when we consider the many varied and pleasant changes which take place throughout the entire growing season in a well arranged hardy garden, in which every weck—yes, every day—brings forth something fresh and new to interest and delight even the most critical. Bcginning in April, the early flowering varieties open their flowers, often before the snow has entirely disappeared, and continue, with constantly changing variety, throughout the Summer, until late in the Fall, when only severe freezing weather will stop such persistent late-blooming kinds as Japanese Anemones, Pompon Chrysanthemums, Gaillardias, Phlox, etc.

Plants are forwarded by express unless instructed to the contrary, purchasers paying charges. Small plants may be forwarded by Parcel Post, and if wanted sent in this way, add 10 per cent to value of order to points cast of the Mississippi River and 20 per cent to points west of same.

## Plants for Special Situations

#### SPECIAL OFFER

12 Hardy Perennial Plants, all pot plants, that will bloom the first year, our selection \$2.50.

The following indications will be found to be of great assistance to you in planning special sections of your garden.

S indicates plants suitable for Sun or Half Shade.

P indicates plants suitable for Partial Shade.

D indicates plants suitable for Dense Shade.

Perennial plants suitable for Rockeries are marked with an asterisk \*.

Perennial plants suitable for edging or ground eovers are marked with two asterisks \*\*.

Our plants are large and strong and adapted to this climate.

# CHRYSANTHEMUMS

#### EARLY FLOWERING CHRYSANTHEMUMS

These beautiful, large-flowering Chrysanthemums are quite hardy, needing just a little dry leaves or straw to keep the sun from injuring the crowns in Winter. Plant them in a rich, well-drained piece of ground, setting the plants a foot apart and pinching out the tops once or twice during the Summer, but not later than July 15. They will make well branched plants that will furnish quantities of flowers after Asters, Dahlias or Cosmos are cut down by frost. The following varieties have been carefully selected and are best suited to our climate.

To secure good pot plants for blooming inside, plants should be taken up and potted not later than August 15, placing them in a shady place a few days and given plenty of water

#### until they become established.

#### LARGE EARLY FLOWERING CHRYSANTHEMUMS

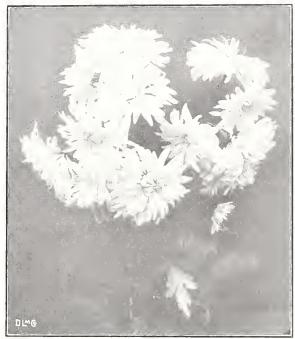

Citronella. Large yellow, incurved. In flower October 20. Early Frost. An early white. In flower October 12. Sun Glow. Large pure yellow. In flower October 15. Golden Queen. Second early yellow. In flower early October.

Mrs. W. T. McNeice. Large pink. In flower October 25, Oconto. Large early white; new. In flower October 15.

Rose Perfection. Large second early incurved pink. In flower October 25,

Tints of Gold. Extra early bronze. In flower October 20. Unaka. Earliest pink. October 12.

Wolverine. Large yellow, in clusters. Earliest of all, in flower September 10.

Hardy Chrysanthemum

25c. each, \$2.50 per doz., one each of the above, \$2.00.

Our early Chrysanthemums are the very best obtainable and are grown by the thousand at our greenhouses for cut flowers. We can supply about 25 later varieties for planting in conservatories.

Centaurea montana. Cornflower Aster. (See page 36)

Pompon Chrysanthemums

#### EARLY HARDY GARDEN CHRYSANTHEMUMS

To follow Asters and Dahlias.

#### **POMPONS**

Bronze Doty. Deep terra cotta bronze.
Lillian Doty. Clear light pink flowers.
White Doty. Pure white.
Iva. Dwarf bronze, free flowering
Niza. Light pink, early.
Golden Firebrand. Deep golden yellow; very early.

Golden Climax. Clear yellow, one of the very best.
Red Doty. Good red. A duplicate of above.
Pink Doty. A little beauty; white with pink center; very double.
Kitty Riches. New Single pink in full bloom Sept. 20th.
Early, dainty light pink.
Buckingham. Large pink.

#### ASTER FLOWERED GARDEN CHRYSANTHEMUMS

Summer Gold. New.
Wolverine. Very early yellow.
Normandie. Best creamy white.
Cranfordia. Exceptionally early, deep bronze-yellow.

Cranford Pink. Beautiful shade of light pink. Cranford White. Purest white.

Alice Howell. Early flaming single yellow.

Each 25c., doz. \$2.50.

# Danker's Superb Hardy Phlox

Probably the most satisfactory of all perennials is the Phlox, and a good space in proportion to the size of the garden should always be given to these plants.

If the early and late varieties are chosen, and the heads of blooms are cut off as soon as the blossoms have faded, the Phlox should blossom from

the middle of June until ice has formed.

The ground where phlox is to be planted should be trenched fully 2 feet in depth, and may be planted in the Autumn, from the 1st to the 15th of October, so that it may become well rooted before Winter; otherwise it should be set out as soon as the frost leaves the ground in the Spring, as growth begins very early.

Whether planted in Spring or Fall, a mulch of old manure thrown around the roots will be of benefit to the plants.

Phlox should be set out 18 inches apart, and if kept well watered will produce both individual blossoms and heads of bloom far larger than otherwise, and amply repay the extra trouble.

In October, after three seasons of flowering, the Phlox should be lifted, the ground again trenched and enriched, the plants separated into

bunches of three or four stalks each, and then reset.

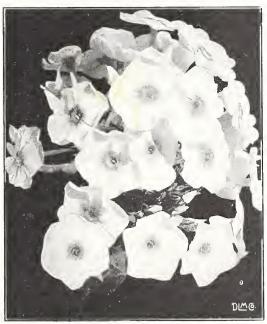

The best effects to be had with phlox are produced by planting masses of each color, not less than six and even as many as two dozen or more plants of one color together. For example, a border of phlox may begin with palest pink and shading up to dark cherry, then pure white and white with a red eye and more white, then quantity of red and again white at the end. If in another border the shades of purple are planted with occasional bunches of white, the phlox will be the pride of the garden.

#### DWARF PHLOX

Divaricata laphami, Perrys Variety. An improved variety, with beautiful lavender flowers that are at their best the last of May. Each 35c., doz. \$3.00.

subulata (Moss or Mountain Pink). alba. Pure white. lilacina. Light lilac. rosea. Rose-pink. amoena. Bright pink.

Each 25c., doz. \$2.50.

Phlox Miss Lingard

Phlox decussata

#### MOST POPULAR VARIETIES

Firebrand (New). The very best red. Each 35c., doz. \$4.00. Bridesmaid (Tall). White; large crimson-carmine center. Each 20c., doz. \$2.00.

Von Lassburg. Purest white, individual flowers very large. Each 20c.,

doz. \$2.00. Elizabeth Campbell. Very bright salmon-pink, with lighter shadings and dark crimson eye; an entirely new and much wanted shade in Phlox. Each 35c., doz. \$3.00.

Europa. White, with crimson-carmine eye; remarkably sturdy. Each 20c., doz. \$2.00.

Geo. A. Strohlein. Bright scarlet, with crimson red eye.

La Vogue. Pure mauve, with aniline-red eye.

Dwarf salmon-pink.

Miss Lingard. A grand white variety, lilac eye; large, individual flowers; blooms in May and throughout the Summer. Each 20c., doz. 82.00.

Mrs. Jenkins (Tall). The best tall, early white for massing.

Von Hochberg. Richest crimson-purple.

W. C. Egan. One of the finest phloxes yet introduced—a pleasing shade of soft pink. Individual flowers frequently measure 134 inches in diameter.

Thor. Deep salmon-pink, alinine red eye. Each 35c., doz. \$3.50.

Jules Sandeau. Pure pink, dwarf, mammoth flower. Each 30c., doz. \$3.00.

Mia Ruys. A vigorous growing, dwarf variety. Enormous trusses of pure white flowers. Each 50c., doz. \$5.00.

Dr. Koningshoffer. Very brilliant scarlet with blood-red eye. Each 50c., doz. \$5.00.

doz. \$5.00.

Mrs. Milly Van Hoboken. Long heavy trusses of soft shell-pink flowers of immense size. Each 50c., doz. \$5.00.

Riverton Jewel. A lovely mauve-rose, carmine-red eve. Each 35c.,

doz. \$3.50. Commander-in-chief (Hindenburg), New. Crimson-red with darker eye.

Each 50c., doz. \$5.00. Homeland (Deutschland). Large trusses of brilliant dark orange-red

flowers. Each 50c., doz \$5.00

Eugene Danzanvilliers. Lilac, shading to white at edges. Each 30c.,

doz. \$3.00.

Enchantress. Large trusses of bright salmon-pink flowers, with dark red eyes. Each 35c., doz. \$3.00.

Each 25c., doz. \$2.50, 100 \$15.00, except where noted.

Large, undivided field clumps can be furnished. Each 50c., doz. \$5.00.

# Danker's High-Grade Lawn Grass Seed

For Lawns, Grass Plots, Tennis Courts, Golf Grounds, Etc.

Weighs 22 pounds per bushel

This HIGH-GRADE LAWN GRASS SEED is composed of the very finest recleaned grasses, free from weeds and all foreign matter. Where a strictly first quality grass seed is wanted, I can recommend this grade of seed, it requiring only three to four bushels to the acre for new lawns, and one to two bushels for renovating old lawns.

By sowing HIGH-GRADE LAWN GRASS SEED you will obtain a beautiful, deep green lawn, which, owing to the varieties used in this mixture, will retain its velvety appearance during the entire Summer.

One quart of our HIGH-GRADE LAWN GRASS SEED is sufficient to sow about 300 square feet; an acre will require from three to four bushels. To produce a good lawn, it is always best to sow the seed thickly.

Price: Qt. 35c., 4 qts. \$1.25, 8 qts. \$2.25, bus. \$7.50.

DANKER'S SHADY PLACE GRASS. Special mixture for using on that part of the lawn that is shaded by trees, buildings, etc. Circular, "How to Make a Lawn," mailed upon request. Price: Qt. 40c., bus. \$8.00.

DANKER'S SPECIAL MIXTURE. Lb. 50c. WHITE CLOVER SEED, Lb. 85c.

### **VEGETABLE PLANTS**

CAULIFLOWER PLANTS, Snowball. From hotbed, 50c. per doz., \$4.00 per 100.

CABBAGE PLANTS, Early. 25c. per doz., \$1.75 per 100.

CABBAGE PLANTS, Late. 25c. per doz., \$1.75 per 100.

EGG PLANTS. Ready in May and June. Best variety. Pot plants, 50c. per doz., \$4.00 per 100.

per doz., \$4.00 per 100.

RHUBARB ROOTS. Best early, 15c. each, \$1.50 per doz.

PEPPERS, Sweet. Pot-grown, 50c. per doz., \$4.00 per 100.

### BEST TOMATO PLANTS

BONNY BEST. An early and productive variety, uniform in size and shape; the color is scarlet, produced in abundance. Pot plants, 60c. per doz.

**NEW STONE.** Fruit very large and deep; bright scarlet. Best for all purposes. 60c. per doz.

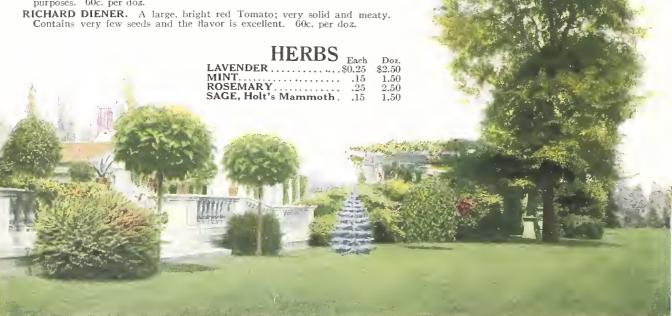

#### U see Co. Brand Lawn Seed FOR SHADE OR SUNSHINE 1 lb. package 50c., per 100 lbs. \$45.00.

This brand of lawn seed is one of the purest sold and contains only what you need to insure a permanent and beautiful lawn. It grows in shade or sunshine.

Ask for our circular "How to Make a Good Lawn."

# Cannas

No other bedding plant will give the same uniformly good results in our varied and trying climate. They do well in all sections of the country, and stand pre-eminently at the head of the list, succeeding in any sunny position in any kind of soil, but responding quickly to liberal treatment. For best results the beds should be spaded 2 feet deep and a liberal amount of well decayed manure of any kind thoroughly incorporated, and at all times supplying water freely.

#### FREE FLOWERING CANNAS

The President. An improvement on Fire Bird. Immense florets of bright red color enhanced by extraordinary vigor and perfect healthy foliage. It grows to a height of 5 feet and produces its immense trusses of florets in great profusion. The most sensational introduction of recent years. Each 25c., doz. \$2.50.

Meteor. Massive, erect trusses of deep blood-red flowers produced with a freedom to leave nothing to be desired in effectiveness. Meteor is the best deep red Canna. 5 ft. Each 25c., doz. \$2.50.

Mrs. Alfred Conard. One of the very best Cannas in commerce today. The large, exquisitely shaded salmonpink flowers are produced in great abundance on robust, upright stalks. 4 ft. Each 35c., doz. \$3.50.

Eureka. The best white Canna for all purposes. The large, substantial flowers are produced on strong, vigorous plants. Each 25c., doz. \$2.50.

Favorite. This is the best yellow Canna spotted with red and received highest award of Society American Florists, 1917. 4½ ft. Each 25c., doz. \$2.50.

Yellow King Humbert (Queen Helen). Identical with King Humbert in habit of growth, but has yellow flowers and green foliage. 5 ft. Each 25c., doz. \$2.50.

Yellow King Humbert (Queen Helen)

King Humbert

Hungaria. The ideal pink bedding Canna; flowers large, in good-sized trusses, produced early, freely and continuously; color not unlike that of the Paul Neyron Rose. Compared with all other pink varieties, it possesses a softness and refinement not found in any other sort. 3 to 3½ ft. Each 25c., doz. \$2.50, 100 \$18.00.

#### SELECT STANDARD VARIETIES

King Humbert. In this grand Canna we have a combination of the highest type of flowers with the finest bronze foliage. Its flowers measure 6 inches in diameter, produced in gigantic trusses; a brilliant orange-scarlet, with bright red markings; foliage broad and massive, of a rich coppery-bronze. 5 ft. Each 25c., doz. \$2.50, 100 \$18.00.

Robusta. Bronze foliage; tall and robust grower. When planted in beds with other Cannas this should occupy the center. 6 to 7 ft. Always use Robusta for the center of Canna beds. Each 25c., doz. \$2.50.

Musaefolia (Banana-leaf Canna). Large, massive leaves, 8 feet tall, suitable for the center of large Canna beds. Each 25c., doz. \$2.50.

For best effect plant in large masses of one color.

For an effective combination bed, starting from center: No. 1, Robusta or Musaefolia; No. 2, King Humbert; No. 3, Metcor. Edge with Salvia, Coleus or Dusty Miller.

CENTAUREA, or DUSTY MILLER. Fine for bedding, vases or window boxes; also extensively used for margins. 4-in, each 20c., doz. \$2.00.

Bachelor Button, or Double Blue Cornflower. 21<sub>4</sub>-in. to 3-in., doz. \$1.00.

Bachelor Button, or Double Pink Cornflower. 21<sub>4</sub>-in. to 3-in., doz. \$1.00.

COSMOS, Giant Early Pink. 214-in. to 3-in. pot plants, doz. \$1.00.

New Large Flowering White. Flowers twice as large as those produced by any large flowering strain. 214-in. to 3-in. pots, doz. \$1.00.

New Large Flowering Pink. 21<sub>4</sub>-in. to 3-in. pots, doz. \$1.00.

COBAEA scandens (Cup-and-saucer Vine). A very rapid

climber. Each 25c., doz. \$2.50.

COLEUS. The varieties offered below are the best of the standard sorts now in use for bedding and filling vases. **Golden Bedder.** Fine yellow. 21<sub>4</sub>-in., doz. \$1.00, 100

\$7.00; 3-in., doz. \$1.50, 100 \$10.00; 4-in., doz. \$2.00 to \$3.00.

erschaffelti. The popular dark crimson. 214-in., doz. \$1.00, 100 \$7.00; 3-in., doz. \$1.50, 100 \$10.00; 4-in., verschaffelti. doz. \$2.00 to \$3.00.

Brilliancy. Large, fancy leaf. 4-in., doz. \$2.50; 6-in., doz. \$5.00 to \$9.00.

**Firebrand.** Dark crimson.  $2^{1}_{4}$ -in., doz. \$1.00, 100 \$7.00; 3-in., doz. \$1.50, 100 \$10.00; 4-in., doz. \$2.00 to \$3.00. **Trailing Queen.** 21<sub>4</sub>-in., doz. \$1.00, 100 \$7.00; 3-in., doz. \$1.50, 100 \$10.00; 4-in., doz. \$2.00 to \$3.00.

Fancy Varieties. Distinct sorts. 4-in., doz. \$3.00. CALENDULA, or POT MARIGOLD. 212-in., doz. \$1,00%

4-in., doz. \$2.00. CARNATION PLANTS. Pink, white and red, grown especially for summer blooming. Each 25c., doz. \$3.00. CROTONS. Extensively used in beds and window boxes.

4-in., each \$1.50 to \$2.00.

CROTONS. Handsome, large variegated leaves. \$2.00 to \$2.50 each; 6-in., \$2.50 to \$3.00 each.

CHRYSANTHEMUMS. Early; yellow, pink and white varieties that will flower in the open before frost. (See pages 33 and 34). Each 25c., doz. \$2.50, 100 \$15.00. CHRYSANTHEMUMS, HARDY. (See Perennial Plants,

pages 33 and 34).

DIDISCUS coeruleus (Blue Laceflower). Exquisite pale lavender blossoms; excellent for cutting. Doz. \$1.00.

ENGLISH IVY. Fine for window boxes. Each 25c., 35c., 50c., \$1.00.

**FEVERFEW.** 4-in., doz. \$2.50.

FUCHSIAS. 4-in., each 25c., doz. \$3.00; 5-in., each 40c., doz. \$4.00.

FORGET-ME-NOTS. Strong clumps. Doz. \$1.00-\$1.50 GERMAN, or PARLOR IVY VINE. Each 20c., doz. \$2.00.

Department

Our nurseries at 774 Central Avenue are worth visiting for anyone who is interested in beautifying the home and surroundings.

Our stock will stand your climate.

Our stock has been transplanted in time, thus safer for you to plant.

Our stock has been trimmed and cared for, thus is sure to please you.

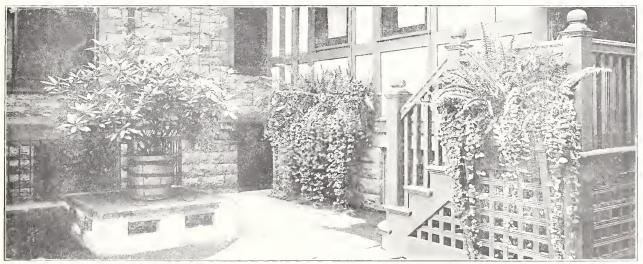

Our stock had all the cultivation wanted, thus is clean and thrifty.

Our stock is the best standard obtainable in this country. Let us make a plan and work that plan with Danker's trees, evergreens, shrubs and perennials to make your house a **home** all the year round.

We have all the stock on hand for extensive as well as for smaller plantings. Visit our nurseries and see the facts. Our advice, estimate, sketch and personal information gratis.

#### OUR PALM SUNDAY EXHIBIT—March 28, 1926

is an annual event and enjoyed by thousands. No sales or orders taken on that day. All are welcome!

#### RED WING POWDER

For the destruction of Roaches, Flies, Bed-Bugs, Moths, Mosanitoes Jice, Chicken Lice, Antse Red Ants, Fleas and certain other Insects Harmless to Mankind and Aumans

#### ALL PRICES SUBJECT TO CHANGE WITHOUT NOTICE.

We herewith offer the best Fertilizers, Insecticides and Fungicides and would suggest that our patrons order their supply early, particularly fertilizers, as the supply is limited in all parts of the U.S. We have a large stock now and can deliver at once.
